

PRODUCTS: GALAXY FLOOR TILES™

GALAXY FLOOR TILE™

An idea for a dramatic lighting project which takes advantage of LED capability to work safely in wet areas. Galaxy tiles are increasingly popular as a way of providing a feature or accent in a ceramic tile décor, and now you can take advantage of their translucency to come up with a way of permanently integrating lights into a tiled wall and floors.

SIZES AVAILABLE: 1"x1" SQUARE OR ROUND TILE
